### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher D Keirs on 2/28/2005.

The application has been amended as follows:

#### IN THE CLAIMS

Claim 1, (Currently Amended): A female undersea hydraulic coupling member, comprising:

a generally cylindrical floating seal inserted into a receiving chamber of the female coupling member, the floating seal having a smaller outer diameter than the receiving chamber and being movable radially within the receiving chamber, the floating seal having a pair of axial ridges extending from a first end thereof and at least one axially engageable seal positioned adjacent a first end thereof between the pair of axial ridges and at least one axially engageable seal positioned adjacent a second end thereof, and at least one sealing surface extending radially inwardly from the floating seal; and

a retainer nut threaded to the female coupling member for preventing axial movement of the floating seal, the retainer nut having an annular, enclosed groove on a
